Importance of CGEIT Certification

- ✓ CGEIT Certification offered by ISACA enhances the skill set of IT professionals who manage IT enterprise governance. Certified in the Governance of Enterprise IT Certification recognizes professionals who have knowledge and expertise in applying IT Governance policies and practices to the organization. Professionals certified with CGEIT are recognized internationally, enabling professionals to look for career prospects beyond the borders of their home country.
- ✓ CGEIT Training is designed as per the content outline released by ISACA. This entitles professionals to focus on Governance of IT, Benefits Realization, IT Resources, and Risk Optimization. Our trainers offer their practical insights on IT governance through real-life examples. This further trains budding CGEIT professionals to be industry-ready while creating their career path in IT governance.

About Unichrone

We are a professional training institute with an extensive portfolio of professional certification courses. Our training programs are meant for those who want to expand their horizons by acquiring professional certifications across the spectrum. ELIGIBILITY CRITERIA

- ✓ Individuals pursuing CGEIT Certification need to possess 5 years of experience in managing, serving IT advisory roles, or in supporting IT governance-related contributions. Within the 5-year experience requirement, an individual should have one year of experience in management and development of the framework for governing enterprise IT. However, the remaining 4 years of experience can be fulfilled by performing the role of any 2 or more of the CGEIT domains stated by ISACA.

WHO SHOULD ATTEND

- ✓ IT governance professionals, IT managers, IT consultants, business professionals, IT directors, and individuals who meet the 5-year experience requirements can pursue CGEIT Training.
