- Get Course Completion Certificate
- Interactive session with Case Studies
- Enrich with Industry best practices and Real Life Examples
- GDPR Practitioner Course adhered with International Standards
- End-to-end support via phone, mail, and chat

# GDPR Practitioner Certification Advantages

# THE GENERAL DATA PROTECTION REGULATION (GDPR)

The General Data Protection Regulation (GDPR) (Regulation (EU) 2016/679) is a regulation by which the European Parliament, the Council of the European Union and the European Commission intend to strengthen and unify data protection for all individuals within the European Union (EU). It becomes enforceable from 25th May 2018 and directly replaces the Data Protection Act. Failure to adhere to GDPR could see businesses attract fines up to 4% of their global annual turnover.

Companies want to know what they need to do to meet GDPR guidelines. By going on our training courses or undergoing in-house training, gives your organisation everything you need from a legal and compliance perspective right the way through to guidelines, resources, policies, processes, data protection, data governance, cyber security, cyber resilience and incident response. It also includes practical steps to implement GDPR and a very useful checklist.

## **Advisory**

Describes the GDPR from both a Business and Technological perspective

Represents current understanding of the subject

The GDPR Training Course is a basic advisory course and because of the rapidly evolving nature of the subject it is advised to take any solution, technique, or opinion is applicable in the workplace or countries from your legal or supervisory authority.

If in doubt you should seek competent legal advice and/or contact your Supervisory Authority
