Importance of ISO 27701 Foundation Certification Training

✔ ISO/IEC 27701 Standard provides a framework for companies aiming to build a powerful Information Security Management System (ISMS) based on a set of well-defined principles. The ISO 27701 standard targets the specific privacy information management system (PIMS) of the already introduced ISMS framework. Holding **ISO 27701 Foundation Certification** indicates that an individual has an understanding of the ISO 27701 standard, its main mechanisms, and their links to the whole ISO/IEC 27001 infrastructure.

✔ ISO 27701 Foundation Training offered by Unichrone helps candidates in acquiring the certification which contributes to the development of the industry through displays of professional ethics through the implementation of privacy information management. Led by leading industry practitioners, our training programs enable participants to gain a complete grasp of the ISO/IEC 27701 standard's key notions. This consists of conducting a detailed assessment of data subject rights, lawful personal data processing, and high privacy standards upheld by well-established privacy governance frameworks.

ELIGIBILITY CRITERIA

✔ Aspirants need not meet any requirements to pursue ISO 27701 Foundation Training Course. However, having prior knowledge of the ISO standard is beneficial.

WHO SHOULD ATTEND

✔ Any individuals involved in and want to gain knowledge about the main processes of privacy information management can attend ISO 27701 Foundation Course.
