Importance of Informatica Powercenter Training

✓ Informatica Powercenter Training Certification is a tactical move that can change the data management perspective of any professional. This certification is pivoted to incentivize individuals to attain a bottom-line understanding of methodologies to exploit the strengths of Informatica Powercenter. It helps professionals streamline the data integration and data warehouse landscapes. With Informatica tools for ETL, organizations can derive long-term success.

✓ Informatica Powercenter Training empowers individuals with crucial knowledge in Informatica ETL tool. It will be conducted for two days by experienced mentors with scholastic knowledge. It equips candidates with deep knowledge of installing and configuring Informatica Powercenter. Moreover, the sessions enhance the knowledge of professionals in data mapping parameters and their components. Training pertains to opening a workflow monitor and steps to use debugger mapping.

ELIGIBILITY CRITERIA

✔ Aspirants need not meet any requirements to pursue Informatica Powercenter Training Course. However, having prior knowledge is beneficial.

WHO SHOULD ATTEND

✔ Any individual who wants to gain skills to understand Informatica can enroll in the Informatica Powercenter Training course.

Syllabus of Informatica Powercenter Training

Lesson 01 – Introduction to Informatica
1. Introduction
2. Use Cases for Informatica

Lesson 02 – Informatica Architecture
1. Architecture of Informatica
2. Informatica ETL Tool
3. Informatica Domain
4. Node
5. PowerCenter Repository
6. Domain Configuration
7. PowerCenter Client and Server Connectivity
8. Repository and Integration Service

Syllabus of Informatica Powercenter Training

Lesson 03 – Installing Informatica PowerCenter	
1.	Install Oracle • Database 11g R2 • SQL Developer
2.	Install Informatica
3.	Set Up SQL Developer Domain and Repository
4.	Install Informatica Server and Client

Lesson 04 – Configuring Clients and Repositories	
1.	Overview of Informatica Domain
2.	Opening the Administrator Home Page
3.	Creating Repository Services
4.	Configuring Client and Domain
5.	Creating User

Syllabus of Informatica Powercenter Training

Lesson 05 – Source Analyzer and Target Designer	
1.	Overview of Mappings
2.	Components of Mapping
3.	Create a Mapping
4.	Mapping Parameters and Variables

Lesson 06 – Mappings	
1.	Packet Headers
2.	Packet Reassembly and Retransmission
3.	Transport Layer in Operation
4.	Application Clients and Servers
5.	Server Applications and Ports
6.	Client and Server Applications
7.	Application Layer Protocols
8.	Exploring the HTTP Protocol
9.	IMAP Protocol for Retrieving Mail
10.	Flow Control
11.	Writing Networked Applications

Syllabus of Informatica Powercenter Training

Lesson 07 – Workflow and Workflow Monitor	
1.	Introduction to Workflow
2.	How to Open Workflow Monitor?
3.	Views in Workflow Monitor

Lesson 08 – Debug Mappings	
1.	Introduction
2.	Steps to Use Debugger Mappings

Syllabus of Informatica Powercenter Training

Lesson 09 – Transformations	
1.	Introduction to Transformations
2.	Classification of Transformation
3.	Transformation • Filter • Source Qualifier and Aggregator • Router and Joiner • Rank • Sequence Generator • Transaction Control • Lookup and Re-Usable • Normalizer
4.	Performance Tuning for Transformation

Exam Format of Informatica Powercenter Certification

Examination Format	
Exam Name	**Informatica Powercenter Exam**
Exam Format	Multiple Choice
Total Questions & Duration	30 Questions, 1 Hour
Passing Score	Minimum passing score of 70%
Exam Cost	Included in training fee

To get you fully prepared with the knowledge and skills for Informatica, a training session at Unichrone gives immense importance to mock questions at the end of every module and problem-solving exercises within the session. Prepared by certified faculty, the practice tests are a true simulation of the Informatica Powercenter exam.
