INFORMATION ARCHITECTURE CERTIFICATION

As per International Standards

UNICHRONE

Unichrone Training Advantages

- ✔ 1 Day Interactive Instructor –led Online/Classroom or Group Training

- ✔ Course study materials designed by subject matter experts

- ✔ Mock Tests to prepare in a best way

- ✔ Highly qualified, expert & accredited trainers with vast experience

- ✔ Enrich with Industry best practices and case studies and present trends

- ✔ Information Architecture Training Course adhered with International Standards

- ✔ End-to-end support via phone, mail, and chat

- ✔ Convenient Weekday/weekend Information Architecture Training Course schedule

UNICHRONE

About Unichrone

✔ We are a professional training institute with an extensive portfolio of professional certification courses. Our training programs are meant for those who want to expand their horizons by acquiring professional certifications across the spectrum. We train small- and medium-sized organizations all around the world, including in USA, Canada, Australia, UK, Ireland and Germany.

Importance of Information Architecture Training

✓ Information Architecture Certification is designed for professionals looking to gain the necessary skills and knowledge required for this rapidly changing and dynamic field. Information Architecture covers a variety of topics, including enterprise information architecture, usability principles, advances in IA, taxonomy design, and information retrieval techniques, among others. It offers an intensive overview of essentialism which is vital when creating efficient user-centred information structures through teaching participants fundamental concepts and methods that have proved themselves best practices over time.

✓ Information Architecture Training offered by Unichrone employs several techniques to make this training fruitful and exciting for the participants. This training can be taken in two different ways: online with a live instructor or in person within a classroom setting. These options are designed for professionals with various preferences regarding studying environments and organizational demands. The training is conducted by experienced industry practitioners who have been working in the field of information architecture for many years thus providing quality learning together with mentorship at all levels possible.

ELIGIBILITY CRITERIA

✔ Aspirants need not meet any requirements to pursue Information Architecture Training Course. However, having prior knowledge is beneficial.

WHO SHOULD ATTEND

✔ Any individual who wants to gain skills to understand Infrastructure Architecture can enroll in the Information Architecture Training course.

Syllabus of Information Architecture Training

Lesson 01 – Introduction to Infrastructure Architecture

1.	Infrastructure Architecture Overview
2.	Role of Infrastructure Architecture in Modern IT Environments
3.	Importance of Robust Infrastructure for Business Success
4.	Fundamentals of Infrastructure Design
5.	Key Principles and Best Practices
6.	Evaluating Infrastructure Requirements and Constraints
7.	Latest Technologies Shaping Infrastructure Architecture
8.	Cloud Computing, Virtualization, and Hybrid Solutions

Lesson 02 – Planning and Requirements Analysis

1.	Stakeholder Engagement
2.	Risk Assessment and Mitigation
3.	Designing for Scalability and Optimal Performance
4.	Capacity Planning and Resource Allocation

Syllabus of Information Architecture Training

Lesson 03 – Infrastructure Components and Technologies

1. Networking Architecture
2. Implementing Secure and Efficient Network Infrastructure
3. Server and Storage Architectures
4. Balancing Performance, Reliability, and Cost
5. Integrating Security Measures into Infrastructure Architecture

Lesson 04 – Cloud and Hybrid Solutions

1. Cloud Computing Overview
2. Assessing When and How to Leverage Cloud Solutions
3. Hybrid Infrastructure Design
4. Integrating On-premises and Cloud Environments
5. Managing Data Flow and Security in Hybrid Setups

Syllabus of Information Architecture Training

Lesson 05 – Implementation and Deployment

1. Project Management for Infrastructure

2. Deployment Best Practices

3. Strategies for Efficient and Reliable Infrastructure Deployment

4. Testing, Monitoring, and Troubleshooting

Lesson 06 – Performance Optimization and Continuous Improvement

1. Monitoring and Optimization

2. Strategies for Continuous Performance Optimization

3. Collecting Feedback for Improvement

4. Adapting Infrastructure Architecture to Evolving Business Needs

Exam Format of Information Architecture Certification

Examination Format	
Exam Name	**Information Architecture Exam**
Exam Format	Multiple Choice
Total Questions & Duration	30 Questions, 1 Hour
Passing Score	Minimum passing score of 70%
Exam Cost	Included in training fee

To get you fully prepared with the knowledge and skills for Information Architecture, a training session at Unichrone gives immense importance to mock questions at the end of every module and problem-solving exercises within the session. Prepared by certified faculty, the practice tests are a true simulation of the Information Architecture exam.
