Unichrone Training Advantages

- 2-day interactive instructor-led training program
- Expert Trainer with International Expertise
- Copy of courses content provided
- Global recognitions and approvals
- Interactive sessions with case studies
- Practice Tests with detailed answers and explanations
- Training Fees includes certification exam price

PRINCE2® Certification Advantages

Importance of PRINCE2® Foundation Certification

PRINCE2 (Projects IN Controlled Environments) is the world's most established method for project management and is globally recognized for delivering successful projects. The PRINCE2 2017 Update represents the first major revision of PRINCE2 since 2009. The updated guidance, Managing Successful Projects with PRINCE2, and new Foundation and Practitioner examinations form the PRINCE2 2017 update.

The method is widely recognized and understood and so provides a common vocabulary for all those involved in a project, which helps effective communication. The method also provides for the explicit recognition of project responsibilities so that participants understand each other's roles and needs. There is a defined structure for accountability, delegation, authority and communication.

The development of PRINCE2 was driven by the feedback from end-users, project management specialists and a review panel of 150 public and private sector organizations. This has resulted in a generic best practice method which is flexible enough to be tailored to the specific needs of different organizations for all projects, including Agile delivery. PRINCE2 is compatible with all other project management qualifications as it provides the technical structure of the framework for the project, which will complement the softer skills learnt on other qualifications.

The PRINCE2 method is in the public domain, and offers non-proprietary best practice guidance on project management. Using PRINCE2 provides you with greater control of resources, and the ability to manage business and project risk more effectively.

This will benefit:

Individuals seeking leading project management skills and greater employment prospects, Project managers, Directors/executives (senior responsible owners) of projects, and Organizations.

The PRINCE2 is a globally recognized and established certification, providing a common project management vocabulary that can be used across all industries. The PRINCE2 knowledge you'll learn on this course is the best practice for project management across the world. It even integrates well with other methodologies, like Agile. The PRINCE2 is also an ideal introduction to a career in project management, teaching a fundamental and flexible approach to project management. Plus, project management professionals holding the PRINCE2 Practitioner earn a UK median salary of £52,500 (IT Jobs Watch).

ELIGIBILITY CRITERIA

There are no pre-requisites to take up PRINCE2 Foundation Training and Exam.

WHO SHOULD ATTEND

- Project Managers
- Aspiring Project Managers
- Project Board members
- Product Delivery Managers
- Project Support Staff
- Operational Line Managers
- Team Leads/ Team Managers

Are you eligible?

Yes

No

Syllabus of PRINCE2® Foundation Training

1. Overview, Principles and Tailoring PRINCE2 to the Project Environment

End Stage Report, End Project Report, Lessons Report
 - The purpose of a:
Checkpoint Report, Highlight Report, Exception Report

Syllabus of PRINCE2® Foundation Training

9. Starting up a Project (SU) Process

- The purpose of the SU process
- The objectives of the SU process
- The context of the SU process
- The purpose of a Project Brief

10. Directing a Project (DP) Process

- The purpose of the DP process
- The objectives of the DP process
- The context of the DP process

11. Initiating a Project (IP) Process

- The purpose of the IP process
- The objectives of the IP process
- The context of the IP process
- The purpose of a Project Initiation Documentation (PID)

12. Controlling a Stage (CS) Process

- The purpose of the CS process
- The objectives of the CS process
- The context of the CS process

13. Managing Product Delivery (MP) Process

- The purpose of the MP process
- The objectives of the MP process
- The context of the MP process

14. Managing a Stage Boundary (SB) Process

- The purpose of the SB process
- The objectives of the SB process
- The context of the SB process

15. Closing a Project (CP) Process

- The purpose of the CP process
- The objectives of the CP process
- The context of the CP process

16. Summary and Directed Studies

17. Review of Key Concepts

PRINCE2 Foundation Certification Exam Format

PRINCE2 Foundation Exam Format:

- Multiple choice examination questions
- 60 questions per paper
- Five questions to be trial and not counted in scores
- 35 marks required (out of 60 available) to pass - 50%
- One hour's (60 minutes) duration
- Closed book
