Importance of GRC RSA Archer

Promotes Collaboration

Improves cross-functional collaboration and alignment, with business users across IT, finance, operations and legal working together in an integrated framework using common processes and data.

Eases Complexity

As the foundation for all RSA Archer solutions and use cases, the platform eases system complexity, strengthens user adoption and reduces training time.

Ideal for Non-Technical Users

Non-technical users can automate processes, streamline workflows, control user access, tailor the user interface and report in real-time using the point-and-click interface to build and manage business applications.

Quick Time to Value

The RSA Archer Platform allows you to adapt a broad range of solutions to your requirements, build new business processes in a fraction of the time it takes to develop custom applications, and integrate with external systems without touching a single line of code.
